

# GREEN-O-ZEL

Holding technology auxiliary material  
Litter treatment powder!

**Composition:** 100% natural zeolite - clinoptilolite of sedimentary origin (1g568)

**Mechanism of action:**

Its lattice structure binds harmful substances, such as ammonia, which produces greenhouse gases, as well as binds heavy metals and allows water to be retained in the soil.

**Advantages of using GREEN-O-ZEL:**

- Reduction of greenhouse gas emissions
- Reduction of unpleasant odors in stables
- Improves working conditions and air quality in the facility by trapping harmful gases, unpleasant odors, ammonia and excess moisture
- Improves the quality of manure
